

CTB "CUP MOUNT" DELINEATOR

FEATURES

- Designed to increase visibility of CTB
- Post size 8"
- Highly visible reflectivity
- Fast and easy installation
- HDPE bright white base
- Premium UV added for long lasting color
- Base can be bolted or epoxied
- MUTCD compliant

SPECIFICATIONS

- Made from impact resistant prime hdpe copolymer designed for mounting on concrete traffic barriers.
- Posts are manufactured with greater wall thickness to provide structural integrity allowing it to hold up to wind and snow plow windrows.
- Posts are sealed and flattened to accommodate a 3" x 4" piece of reflective sheeting.
- Installed with adhesive, concrete rivet anchors or tapcon screws.

STOCK COLORS

*Call for minimums on other colors.
